Press Release

For Immediate Release

Greenville, IL - March 21, 2019

City of Greenville Compost Availability

The City of Greenville composts leaves and offer them back to residents.

Residents may obtain compost from the City of Greenville Public Works location at 1307 South Fourth Street starting the first week of April. Public Works will load on Wednesdays and Fridays from 8:00 -12:00 p.m. NOON until it runs out.

The City of Greenville's Leaf Vacuuming program runs through Friday, April 12, 2019 (weather permitting). Residents are asked to rake their leaves to the edge of the curb or edge of the road so the vacuum can reach them. Please keep piles no higher than three feet and make sure sticks, brush and other debris are not in the piles as it could cause the machine to malfunction. You can also set your bagged leaves out and the City of Greenville will pick them up throughout the week as the schedule allows.
